Grading and Condition

Superb	Extraordinary item in the finest condition.
Extremely Fine	Outstanding and exceptional quality.
Very Fine	Choice, first-class condition.
Fine-Very Fine (F-VF)	Stamp or cover in sound condition; if a stamp, it is slightly less well-centered than Very Fine but better centered than Fine.
Fine	Sound in all respects. Perforated stamps will have the designs clear of the perforations; the designs of imperforate stamps will not be cut in to any significant degree.
Very Good (VG)	Imperfect centering (stamps) or poor general appearance.

Any stamp faults such as a thin spot, tear, crease etc., will be described at all times. In such cases, the grade will generally have the word "appearance" added to reflect how it appears despite the flaws.

Postally used covers should be expected to have the normal degree of wear associated with them including minor nicks, short edge tears, flap tears and slight reduction at one side. These are normal conditions for 19th century envelopes and not grounds for return.. Folded letters should be expected to have at least one file fold.

In lots containing several items, degrees of condition denote the overwhelming average and examples above and below such condition can be expected.

Terms of Sale

The property offered in this catalog will be sold at public auction by Kewriga Auctions on behalf of various consignors and itself or affiliated parties. The placing of a bid, whether directly or through an agent by any means (in person, telephone, fax, internet, etc), the bidder acknowledges and agrees to the following conditions of sale.

Bidding

1. All bids (whether by floor bidders, mail bidders, or telephone bidders) will have a premium of **18%** added to the auction sale price.
2. All bids are per lot as numbered in the catalog unless otherwise announced by the auctioneer at the time of sale. The right is reserved to withdraw any lot prior to sale, to divide a lot, or to group two or more lots, or to act on behalf of the seller. Kewriga Auctions will execute bidding instructions on behalf of clients, but will not be responsible for any errors in the execution of such bids. Kewriga Auctions is not liable for bidding errors related to live auction internet bidding and/or the loss of internet connection during the live auction.
3. The highest bidder shall prevail; lots are sold at one increment over the second highest bid. Should any dispute arise between bidders, the decision of the auctioneer as to the successful bidder and the reoffering or resale of the lot under dispute shall rest entirely on the judgment of the auctioneer. The auctioneer shall regulate the bidding and reserve the right to refuse any bid believed by him not to be made in good faith.
4. Consignor has and retains the right to bid personally, or by his duly appointed agent, through the auctioneer, unless the sale is advertised and announced as one restricting such bidding by consignors or their agents.

Purchase Payment

5. **FLOOR BIDDERS.** Floor bidders shall furnish the auctioneer their names and addresses prior to bidding on any lot. The name and address of the buyer of each lot shall be registered with the auction house following the sale of each lot. Payment of the whole purchase price shall be made by the floor buyer in such manner as the auctioneer may determine. Special credit arrangements must be made prior to the sale.
6. **MAIL BIDDERS.** A successful mail bidder will be notified of lots purchased and must remit payment before the lots are sent. Auction bills are due and payable upon receipt of notification. If buyer's payment is not received within ten (10) days, Kewriga Auctions may resell all lots without notice. Any and all losses incurred as a result of resale will be passed on to the defaulting buyer. .
7. **BANK TRANSFERS.** A successful mail bidder known to us for the information necessary to pay directly into the vendor bank account. Any additional charges resulting from processing payments by this method shall be borne by the buyer. Method of payment should be noted on the bid sheet.
8. Title shall not pass to the buyer until full payment is received by Kewriga Auctions.
9. All of our lots are sold as genuine. Lots accompanied by recent (within 5 years of sale date) expert certificates are sold "as is" based on the description in the certificate. The aforementioned expertized lots may not be returned under any circumstances including those instances in which subsequent certificates yield conflicting opinions. The accepted authorities for U.S. stamps are the Philatelic Foundation (P.F.), the Philatelic Stamp Authentication and Grading, Inc. (P.S.A.G.) and the Professional Stamp Expertizing Committee (P.S.E.). **In addition, a lot may not be returned because an expertizing service grades a stamp lower than the grade stated in the description, or differs from the accompanying certificate.**

10. The Auctioneer must be notified within 5 business days from the date of the auction of any request to place a lot on extension for expertizing. All extensions must be paid in full, in advance. There will be no exceptions and no lots may be returned under any circumstances if this term has not been strictly followed.

11. All lots on extension must be submitted for expertizing by the auctioneer exclusively. Each lot is sold as genuine, except those described "as is", but when, in the opinion of a competent authority acceptable to Kewriga Auctions, the lot is declared otherwise, the purchase price will be refunded in full. The lot must be received by Kewriga Auctions within a period of thirty (30) days from the date of auction. Expenses incurred for purposes of expertizing shall be borne by the purchaser except where the lot is found by said competent authority to be materially not as described, in which case the consignor will be responsible for expertizing costs incurred. Proof of the inability of said competent authority to express a definite opinion is not grounds for return of an item.

12. Any lot, description of which is incorrect, is returnable (A) within three (3) days of receipt and (B) if received by Kewriga Auctions within thirty (30) days from the date of the auction. All disputed lots must be returned intact, in the condition received; no adjustments will be made. The following lots are not returnable: lots containing ten (10) or more items; lots from purchasers, or their agents, who had the opportunity to examine them before the auction; items described as having defects or of a quality standard "Very Good" (V.G.) or below; lots with disputed centering or margins when the item is photographed. In addition, lots described "as is" are not returnable under any circumstance.

13. **JURISDICTION.** In the event of any dispute between the auctioneer and bidders, or between any parties requesting inspection of any of the lots and the auctioneer, or between persons offering their lots to be auctioned and the auctioneer, the jurisdiction over the dispute shall be in the County of Henrico, Virginia.

14. In the event of any dispute, the prevailing party shall be entitled to court costs and reasonable attorney's fees.

Registry Exchange Labels

The Al Kugel Collection

This collection shows examples of the special exchange labels used by the U.S. Post Office Department on outgoing international registered mail (except for Canada) between 1883 and 1911. The idea was adopted by the U.P.U. at its 1882 convention in Paris, with a regulation stating that for international mail "Registered articles must bear a label or impression of a stamp, showing the capital letter R in Roman text." Based on this, the Post Office Dept. ordered the printing of the special labels for designated offices authorized to exchange mail with foreign countries.

The collection is the most complete assemblage of registry labels from different cities, with 27 of the 28 recorded locations being represented (missing only Brownsville). Some of the labels have the name of the city printed on them, while other places used generic labels with the name added by handstamp or in manuscript. With the exception of a few temporary labels for Shanghai, all of the labels were produced at the Government Printing Office on white pelure paper and then gummed, perforated and numbered at the Bureau of Engraving & Printing. While these are clearly postal paper, they were not accountable. Thus, the official records are obviously incomplete and may be inaccurate in some respects. For example, the United States Official Postal Guide of December 1882 states that labels were supplied to 20 different offices, but examples have been reported from only 14 of these. In addition, however, labels have been recorded from fourteen other cities.

A COLORFUL AND RARE DEGRON-KUN COVER WITH JAPANESE CHERRY BLOSSOM AND THREE-COLOR FRENCH CERES FRANKING. THE MARKINGS AND STAMPS ARE ALL ON THE FRONT AND THE ORIGINAL LETTER IS INTACT, MAKING THIS ONE OF THE MOST DESIRABLE OF ALL DEGRON-KUN COVERS.

This cover was sent by Felix Frederic Georges Lebon (1845-1923), who was captain and Chief Artillery Instructor of the French Military Mission to Japan. He arrived in Tokyo on May 17, 1872, and was employed by the Japanese Ministry of Army. Captain Lebon resided in the Instructors' House at Nagatacho in Tokyo. His time in Japan spanned four years.

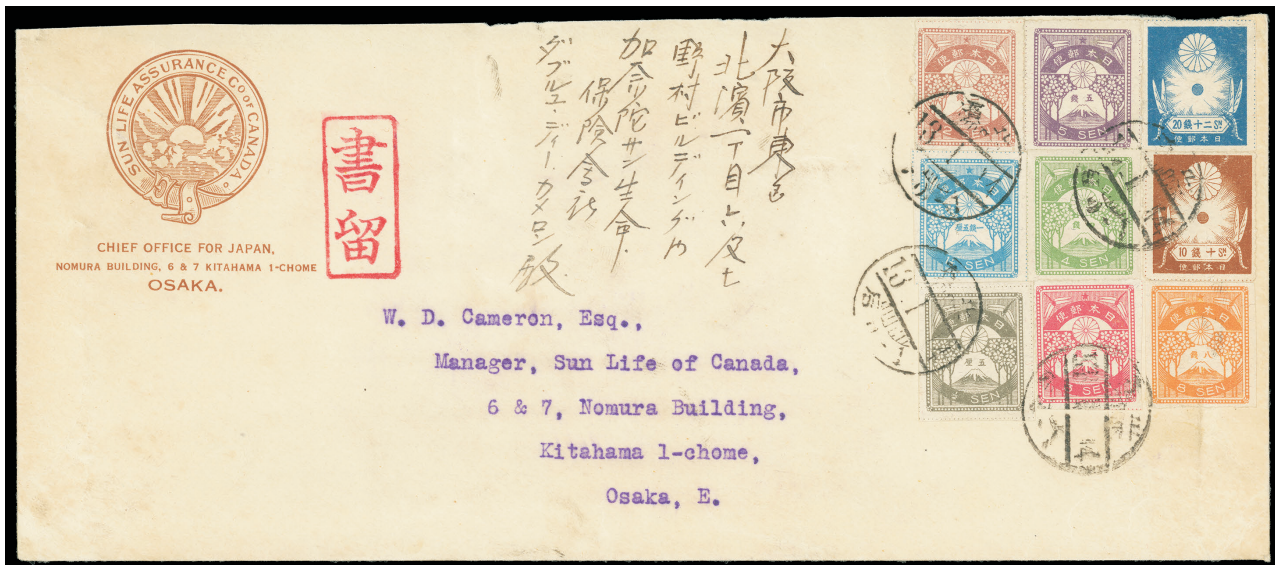

No later than January 1873, members of the French Military Mission began using the "Degron-kun" method to send letters by Japanese mail to Henri J. Degron, postmaster of the French post office in Yokohama, for entry into the international mail system. The handstamped address to Postmaster Degron identifies covers sent by this method. Many of the covers have Japanese and French mixed frankings (the Japanese stamps have been removed from some).

Nearly 90% of the Degron-kun covers reported by Matsumoto have the Type 1 handstamp. As Matsumoto points out (p. 151), the wording of the Type 1 handstamp is inaccurate. Degron was never "Chief of French Mail Ship Co." (Messageries Maritimes). He was the postmaster of the French post office in Yokohama, who prepared mail for French steamship packet sailings as part of his responsibilities. This was prepaid for the 100c rate by French Packet via Marseilles.
